- Flat fold/cross fold canister

Dryer Sheets

Producing more than a billion dryer sheets per year, Kleen Test is one of the world's largest and longest running fabric softener sheet manufacturers and packagers. With one facility devoted solely to dryer sheet production, we custom manufacture dryer sheets to your exact specifications for:

- Fragrance
- Package count
- Sheet style and size
- Fabric
- Coating weight

Specialized Nonwovens Converting

Our diverse coating, laminating, and sonic welding capabilities provide you with the ability to create unique products using a variety of material combinations and coatings. Some product examples include:

- Dry wipes
- Mitts
- Coated laundry sheets
- Dish and car care products

Supply Chain Innovation

*Quality Controls That Protect
Your Brand's Reputation*

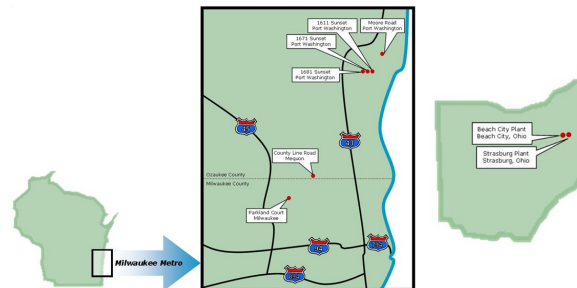

Kleen Test Products Corporation is a high quality contract manufacturer and developer of consumer and institutional products. Equipped with the brightest talent and latest technology, our diverse capabilities include:

- Comprehensive product development
- Formulation expertise
- Onsite blending/coating
- Microbiological and analytical testing
